Air T, Inc.'s Global Ground Support Subsidiary Reports \$3.5 Million Order from United States Air Force

MAIDEN, N.C., May 5, 2006, -- Air T, Inc. (Air T) (Nasdaq Small Cap:AIRT) announced today that its wholly owned subsidiary Global Ground Support, LLC (Global) has received a \$3.5 Million order from the United States Air Force for mobile de-icing trucks. The order consists of the Extended Reach Deicer Model ER 2875, which the Air Force uses to deice C-5 and C-17 aircraft. The ER 2875 deicer, with a nozzle/operator height of seventy-five (75) feet, has the capabilities of meeting deicing requirements of large commercial aircraft and the newly introduced Airbus A380.

Global, a recognized worldwide manufacturer of military, airline, and airport ground support equipment, is currently under contract with United States Air Force for the supply of mobile de-icing trucks for the Air Force and Navy. In addition to manufacturing a complete line of de-icing equipment for all sizes of aircraft, including the new Airbus A380, Global also produces decontamination equipment, catering/cabin service trucks, and fixed stationary de-icing systems. Global, based in Olathe, Kansas, has sold more than 900 units to 89 customers in 21 countries throughout the world.

Air T, through its subsidiaries, operates in two business segments; the manufacture, sale and servicing of aircraft ground support and special purpose industrial equipment, mentioned above, and the provision of overnight air freight services to the express delivery industry. Air T is one of the largest, small-aircraft air cargo operators in the United States.
